1.	Int	roduction	.3
2.	Ins	tallation	.3
	2.1.	Download the App from the Playstore	.3
	2.2.	Configure the App	.4
	2.3.	Logon to the App	.6

1. Introduction

This manual will instruct users to install an App on their phone with access to the PCS system. The App is available for both Android and Apple. This document will only show the Android installation, for Apple it is similar. It can be used on smartphones and tablets.

The App is a general feature from the development platform that is used to build PCS. The product is called Thinkwise. After you have configured the App it will show the CENTER PCS content. You will use the same credentials and authenticator that is used for the web application.

2. Installation

2.1. Download the App from the Playstore

Locate the Thinkwise Indicium app in the Playstore, download the App.

2.2. Configure the App

Locate the App on your phone and open it

In the App select the configuration option:

				З×
		* 🗑 🚉	iii 75% 🗎 09	:18
	Login	-s		
Username:				(
Password:				
				-
Stoy signed in				
Stay signed in				
			Login	
	•			
	*			

Set your configuration exactly as shown in this screenshot:

		Ц×				
	* 0	🖘 🕼 75% 🛢 09:19				
÷	Settings	2019.2.002				
Metasource:						
Meta server url:						
https://sxm-api.centerpcs.com/iam/iam						
Download files:						
Default offline logic: Off						
Clear cache						

The Meta server url is: <u>https://sxm-api.centerpcs.com/iam/iam</u>

After configuration click on the return icon in left upper corner, you will return to the logon screen.

2.3. Logon to the App

Open the App and you will be at the Login page.

Fill in your credentials:

	Ľ × \$ @ \$:1∥ 74% ∎ 09:26
Logir	1
Username:	
Password:	
Stay signed in	
	Login

Click Login

The application will ask for your authentication code (from the Authenticator App that you are using to access PCS)

Fill in and click on Submit valdation code Version: 1.0

After successful logon you will see the PCS Mobile menu, which is similar to the menu that you see on the Web.

Ľ × \$∰ कि.1∥ 73% ∎ 09:30
R PCS

19 >
>

You will see the same data as on the website, example a list of vessel calls:

There are several functions (if authorized):

÷	Return to previous page (finally you will return to the login page)
+	Add new entry (if authorized to insert)
>	Drill down to details level
C	Refresh the list
*	Access filters
=	Access subpages
	Edit the data (if authorized)

This is an example of a details page:

Subpages (tabs) are shown at the bottom. The ... will open more subpages.

Documents

Vessel call approval

•••

On a tablet you will see the information in wider perspective:
